“

Community in today's church is helped along through clear and consistent communication. The ShelbyNext App provides members of First Baptist Church with a tool to connect and communicate more

”

The fast-paced nature of our culture impacts our lives daily. We expect our internet to be fast, answers to our questions faster, and information to be immediate. The same expectations often impact a church's ministry.

A consistent topic of conversation within our congregation is the need for better communication. It is through communication that we share information and needs, schedule and promote ministry events, and look out for and care for one another.

Any tool that combines contact information, the opportunity to communicate, access to an active church calendar, and the opportunity for online giving is certainly one we could use and benefit from.

For the past several months, our staff and a small test group of leaders have been putting our new Church App to the test. We have been testing out our online church directory, online giving portal, group features such as attendance and mass contact options, and more. Now, it is ready for you to give it a try!

The roll out of the new First Baptist Church App powered by ShelbyNext provides our congregation with a tool to effectively connect with one another while connecting, as a community, with God and the mission and ministries He has called us to take part in.
